COMPANY OVERVIEW

About Us

Noria Limited is a Nigerian company founded on the principles of integrity and driven by passion to provide qualitative and sustainable solutions in the areas of Supply Chain Management, Equipment Rentals and Procurement, Contracting, Import/Export Operations and Consultancy, Technical Assistance/Labour Contracting and other Oilfield Operations and Services. The Company also functions as a buying house.

Our Service range extends even further to include: Electrical and Mechanical Materials supply, Maintenance and Installation; Fire and Gas systems; Meters and Flowmeters and Valves Procurement;; Pharmaceutical Supplies; and Manpower Supply Services.

Noria is headed by a highly experienced Executive, with over three decades of operational and management experience in Oil and Gas Upstream Operations and Supply Chain Management. We are also adequately aligned with best-in-class of technical and operational personnel that are postured to deliver services that extend the life cycle of assets, reduce maintenance cost and ensures that the environment is protected. Our growth ratio is premised on our propensity to excellence and a culture of safety.

OUR PROCESS

Our Process is Quality- Driven!

We are committed to operating every aspect of our business to the highest standards obtainable.

Built on the framework of innovative thinking which propels us to constantly operate in the space of solutions- creation, our strength lies in our unique service methods, our insistence to proffer sustainable options only. We constantly tackle and solve project and operational challenges, through well researched and innovative solutions and service delivery techniques.

The fact that we hold ourselves to the highest possible quality standards, keeps our clients reassured of the best outcomes. Our keenness on technology and our progressive management systems are also driving factors in our client's retention. We have additionally instilled into the seams of our business value chain a strong safety and quality culture.

OUR PROCESS

Mission

We are committed to providing cost-effective solutions to maximize client's assets, and deploying acceptable engineering principles, best - practice industry standards as well as exploring the full range of technology, to answer to present- day and imminent oil industry and energy sector needs.

Vision

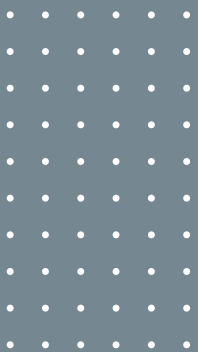

To be known as one of the foremost companies delivering exceptional quality and innovative services, through forward-thinking service approaches and formidable partnerships, to various sectors in the sub-Saharan Africa economy, primarily the oil, gas and energy sector.

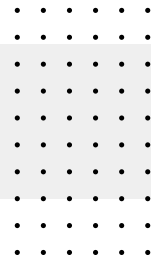

COMPANY VALUES

Our Company values are anchored in the Seven-fold principles below:

1. Excellence
2. Safety
3. Environment
